Superhero landing pose

Guided drawing

Foreshortening, a directional light and five pencil values

DRAW HERE

Draw over the pale lines.

FINISHED REFERENCE

PENCIL PRACTICE

1. Follow the action through the torso to the landing foot.
2. Use overlap and size to bring the nearer knee and hand forward.
3. Keep the lit planes clear. Group the shadow as it falls across the ground.

PENCIL TONES

Leave Paper white.

Paper | Light | Middle | Dark | Deep

BEFORE YOU FINISH

Check the nearer forms, the landing contact and the direction of the cast shadow.

Draw with fewer guides

Foreshortening, a directional light and five pencil values

DRAW HERE

Start with the few marks.

FINISHED REFERENCE

PENCIL PRACTICE

1. Mark the hand, head and feet. Build the tilted torso between those anchors.
2. Compare the lengths and overlaps of the nearer and farther limbs.
3. Use the five values. Keep the strongest contrast close to the figure.

PENCIL TONES

Leave Paper white.

Paper | Light | Middle | Dark | Deep

BEFORE YOU FINISH

Check the nearer forms, the landing contact and the direction of the cast shadow.
